

The Toyota Technical Education Program gave me the opportunity to apply all that I learned from my college education and specialized training, by offering me a position as an apprentice at the Toyota Hawaii Technical Training Department. After graduating from Honolulu Community College, the position as an apprentice later led to a full-time position as an Auto Technician.

Working for Servco as an Auto Technician has been a rewarding experience. Servco's Technical Training and Service Department staff have been very supportive during the past 25 years in my growth as an Automotive Technician from a beginner, to my current position as a Journey Auto Technician. Through continuous technical training and years of hands-on work experience with Servco, I have developed a great feeling of confidence to take on the many challenges that the automotive industry has in store for the future.

ARNELL AURELIO

Journey Auto Technician
Servco Toyota, Honolulu Service

SERVCO PACIFIC INC.

We've come a long way since 1919, where our humble beginnings started in a small Haleiwa garage. Today, Servco Pacific Inc. (Servco) is Hawaii's largest privately owned business with operations in automotive, insurance brokerage, appliance distribution, and investments. We employ over 1,800 individuals in the Hawaiian Islands, Pacific Northwest, and Australia. But, as large as we've become, and as modern as our products and technologies are, we still do a few things the old-fashioned way. This includes giving our customers great service, and treating our employees like family, by offering outstanding benefits and opportunities.

GROWTH

Servco wants its Team Servco members to take the opportunity to grow and determine their own future. Servco University is an e-learning platform, where all team members have access to thousands of online training courses. The Learning Center, powered by Servco University, provides videos and materials needed to improve an individual's skill sets. Employees are also encouraged to pursue further education, as Servco's Employee Education Assistance Program can help by providing tuition reimbursement.

At Servco, we want our people to be the best they can be—in fact, we depend on it. We invite you to join Team Servco and know you'll find a challenging and rewarding future here.

EDUCATION
PROGRAM

JUMP START YOUR CAREER AS A TOYOTA TECHNICIAN

The gateway to becoming successful in a rapidly changing hi-tech automotive industry is education! Jump-start your career as an automotive technician through the Toyota – Technical Education Program (T-TEP)!

Gain access to unimagined opportunities in the automotive service and repair field.

PROGRAM BENEFITS:

- Full-Scholarship for remaining college education
- A \$2,000 tool kit
- Specialized in-service Toyota product knowledge and hands-on training using the latest equipment and training aids that Toyota has to offer.

The T-TEP began in 1992 in partnership with Honolulu Community College's Automotive Technology Program. The T-TEP program assists top candidates by offering scholarships and employment opportunities to selected students while earning their Associates Degree in Automotive Technology.

(This is incorrect. They are applying for the scholarship via a scholarship applicant and only if selected for the scholarship is a casual part-time job something that they may be offered.). As a T-TEP Apprentice Technician,

students will have the opportunity to apply newly learned theory from school, on Toyota simulators and vehicles. T-TEP students will also have the opportunity to attend technical training seminars with full-time Toyota technicians, and gain Toyota Technician credits recognized by any Toyota Dealer.

To plan for a future in the Automotive Industry as a hi-tech Toyota Technician, enroll in Honolulu Community College or Leeward Community College's Automotive Technology Associate Degree Program, in pursuit of scholarship and employment opportunities offered through the T-TEP.

HOW ARE THE RECIPIENTS SELECTED?

Applicants meeting the minimum requirements will take a written mechanical aptitude test. Based on the top test scores, finalists will be interviewed by the selection committee composed of representatives from Servco and either Honolulu Community College or Leeward Community College.

SCHOLARSHIP RECIPIENTS WILL ALSO BE ASKED TO:

- Complete a Servco employment application (this is done on-line)

UPON RECEIVING A JOB OFFER FROM SERVCO, THE SCHOLARSHIP RECIPIENT WILL BE ASKED TO:

- Submit a current satisfactory traffic abstract.
- Successfully pass a drug test and post-offer physical examination.
- Successfully pass a criminal check.

HOW DO I APPLY

To apply for the T-TEP, you must meet the following requirements:

- Be a current Honolulu Community College or Leeward Community College student pursuing an AS degree in Automotive Technology.
- You must have completed at least one semester in the Automotive Technology AS degree program and have at least one semester remaining in addition to the current semester before graduating.
- Have a minimum cumulative GPA of 3.0. (Cumulative GPA applies to all courses required in the AS Degree Program.)

If you meet the minimum qualifications, simply complete the T-TEP scholarship application form and submit it by the deadline stated on the T-TEP scholarship application.
